SUMMARY

Full Stack Developer skilled in JavaScript, React.js, Node.js, Express.js and MySQL, with hands-on experience building web applications and REST APIs. Strong understanding of authentication, database integration, and responsive UI development. Focused on building scalable and secure applications.

EDUCATION

Master of science in Computer science (Expected 2027) • The New College , Chennai

- Top 10% of class

Bachelor of science in Computer science (Expected 2025) • A.V.C college (autonomous) , Mayiladuthurai

- 2nd Prize, Intra-college Hackathon

SKILLS

Languages: JavaScript, Python, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Database: MySQL

Tools: Git, GitHub, Postman, VS Code

Concepts: REST API, Authentication (JWT, bcrypt), CRUD Operations

PROJECT

Full stack Blog Application

- Built a full-stack blog platform using React.js, Node.js, Express.js, and MySQL with authentication and CRUD functionality
- Designed REST APIs and optimized database queries for efficient data handling
- Implemented image upload and dynamic content rendering to enhance user interaction
- Enabled multi-user interaction with secure authentication.

Secure Authentication System

- Built a secure authentication system using Node.js and Express with bcrypt for password hashing
- Implemented login validation and protected routes with backend authentication and session handling
- Ensured secure data handling by preventing plain-text password storage and enforcing validation checks
- Structured authentication logic for scalable user access and secure request handling
